### Race Bib Logger

The **RaceDay Race Bib Logger** is designed to be used as both the primary and secondary scoring backup for small to medium foot race events. The race bib logger is durable and water proof, and is field tested to provide years of maintenance free operation. It allows the operator an easy-to-use start up interface, yet is full featured.

## Key Specifications

### Standard Features.

1. Compatible with all scoring systems.
2. Uses CSV format for race data storage.
3. Permanent storage of 1000'S of events.
4. Durable enclosure is water proof.
5. Ten (10) hour battery usage.
6. USB pen drive for data backup.
7. Race Clock start time is programmable.
8. Accurate 24 Hour local time clock.
9. Power supply, pen drive, carrying bag.
10. Owner's manual: print & down load copy.

### Electrical.

1. Standard 12 volt DC operation.
2. Power input is polarity protected.
3. Power ON self test.
4. LED power indicator.
5. Long life Lithium-Ion batteries.
6. Touch keypad for data entry.
7. High contrast LCD display, even in sunlight.
8. Built-in "fuel gauge" battery status.
9. Multi-core low power microprocessor for exceptional reliability.

The **RaceDay Race Bib Logger** has a full featured Menu selection that allows the operator to set all the timing parameters and clocks. Standard features include: a temperature compensated crystal controlled clock, Lithium-Ion battery pack with built-in charging circuitry and a bar graph "fuel gauge" usage display, internal SD-card memory for saving 1000's of race events, user manual stored in memory, and all stored race event data can be down loaded to a USB pen drive.

The race bib logger comes complete with all the cables, wall-type power supply, carrying bag, extra USB pen drives, and owner's manual. If the owner's manual is ever needed in the field, a copy can down-loaded from the internal SD card to any pen drive for viewing.
