

# Specification

## Item: P2 indoor SMD led module

| <b>※Module</b>                    |                    |                              |
|-----------------------------------|--------------------|------------------------------|
| (Technical parameters)            | UNIT               | ( parameters values )        |
| (Pixel pitch)                     | MM                 | 2                            |
| (Panel size)                      | MM                 | L128XH128X18                 |
| (IC)                              |                    | ICN2037                      |
| (PCB thickness)                   |                    | 1.6mm                        |
| LED chip                          |                    | epistar                      |
| LED lamp                          |                    | Hongsheng                    |
| LED lamp size                     |                    | 2121                         |
| (Housing)                         |                    | Xinguang                     |
| (Physical density)                | /M <sup>2</sup>    | 250000dots                   |
| (Pixel configuration)             | R/G/B              | 1,1,1                        |
| (Driving method)                  |                    | 1/32 scan                    |
| (Display resolution)              | DOTS               | 64X64                        |
| (Module weight)                   | KG                 | 0.15                         |
| (Module port)                     |                    | HUB75B                       |
| (Module working voltage)          | VDC                | 5                            |
| (Module consumption )             | W                  | 25                           |
| <b>※Screen</b>                    |                    |                              |
| (Viewing angle)                   | Deg.               | H120 V120                    |
| (Option distance)                 | M                  | 1-60                         |
| (Driving device)                  | IC                 | 2037                         |
| (Every square metre module)       | PCS                | 64pcs                        |
| (Maximum power)                   | W/ M <sup>2</sup>  | 800                          |
| (Frame Frequency)                 | HZ                 | 60                           |
| (Refresh frequency)               | HZ                 | 960-1920hz                   |
| (Equilibrium brightness)          | CD/ M <sup>2</sup> | 800                          |
| (Working environment temperature) | °C                 | -10~60                       |
| (Working environment humidity)    | RH                 | 10%~70%                      |
| (Display working voltage)         | VAC                | AC46~54HZ, 220V±15%/110V±15% |
| (Colour temperature)              |                    | 8000K-11500K                 |

|                          |                    |   |
|--------------------------|--------------------|---|
| (Gray scale/color)       |                    | $\geq 16.7M$ color  |
| (Input signal)           |                    | RF\ S-Video\ RGB etc  |
| (Control system)         |                    | PCTV nonlinearity card, DVIdisplay card, Linsn control system,Nova,etc, |
| (Mean free error time)   | HOURS              | >10,000   |
| (Life)                   | HOURS              | 100,000   |
| (Lamp failure frequency) |                    | <0.0001   |
| (Antijam)                |                    | IEC801  |
| (Safety)                 |                    | GB4793  |
| (Resist the electricity) |                    | 1500V last 1min No breakdown  |
| ( Steel box weight)      | KG/ M <sup>2</sup> | standard steel box 960X960mm,43   |
| (Earth leakage current)  | mA                 | <3.5MA  |
| (IP rating)              |                    | IP20  |
