### C I2C Driver

This is a generalized version of the SPIN I2C driver (V 1.3) by James Burrows ported to C for Imagecraft's ICCV7 C compiler for the propeller. It has been tested on several I2C devices. The demo code runs an LCD and an ultrasonic ranger. Bugs reports and suggestions are welcome.

The I2C logo is copyrighted by NPX (Philips), see [http://www.nxp.com/products/interface\\_control/i2c/licensing/](http://www.nxp.com/products/interface_control/i2c/licensing/)
