Your source for component parts.

High reliability and low cost make this DPDT miniature PC relay an easy purchase.

- DPDT 5A at 240VAC/24VDC
- Nominal coil rating of 12VDC, maximum 15.6VDC
- Pickup/dropout voltage 9.6/0.6VDC
- Nominal coil current 60mA

What's in the box

- 1 x 12VDC/5A DPDT mini relay

Your source for transistors.

Use this transistor for your electronic needs. Power dissipation of 80W. Case type: TO-220.

- V(CE): 2.0
- V(BE): 2.8
- I(C) Max: 8.0A

What's in the box

- TIP120 - NPN-D transistor with case type TO-220 (1)

Your headquarters for transistors.

Transistor has a power dissipation of 350mW and I(C) Max. of 200mA.

- Mfr.#: MPS3904
- Case Type: TO-92
- V(BE): 0.85
- V(CE): 0.2

What's in the box

- N3904 NPN Small signal transistor (1)
